Abhinav

What you need to Succeed

- BE/B.Tech/MCA/ME/MTech/ from premier institute in computer science or related field
- A minimum of 8-11 years of experience as a software engineer with relevant Industry exposure
- Experience building products for developers e.g. SDKs, libraries, open source software.
- Experience in C&C++ (modern C++ e.g. C++11, C++14 is a plus) and object-oriented design
- Experience in Objective-C and Cocoa framework on Mac
- Knowledge of print technologies like PostScript and PDF
- Passion for writing efficient highly performant code for desktop (Mac and Windows) applications
- Passion for collaborating with multiple engineering teams that are clients using your software
- Deep understanding of overall systems development life cycle including various methodologies (agile, waterfall, iterative).
- Exposure to TFS and MS Build or equivalent systems
- Exposure in writing libraries or apps on iOS or Android is an additional advantage
- Exposure to open source technologies

Personal Attributes

- Flexible and adaptable in regard to learning and understanding new technologies.
- Strong written and oral communication skills.
- Strong interpersonal skills.
- Ability to conduct research into software-related issues and products.
- Highly logical.
- Technically proficient.
- Highly self-motivated and directed.
- Keen attention to detail.
- Proven analytical and problem-solving abilities.
- Ability to effectively prioritize and execute tasks in a high-pressure environment.

Reporting Structure:

- This position will report to the Director/Manager
- Could report to additional levels based on Project team composition
